

21st August 2020

Corporate Announcement, Sales & Distribution

Country: Japan

Dear PTW customers,

The use of ionizing radiation for diagnostic and therapeutic purposes is an integral part of today's medicine. Since the discovery of X-rays by Wilhelm Röntgen in 1895, scientific and technological progress has led to better diagnostic testing and safer radiotherapy treatments.

As a pioneer in medical radiation measurement, PTW has always been – and will continue to be – at the forefront of advancing patient safety through innovation and cutting-edge measurement technology.

PTW is a global market leader for dosimetry solutions focusing on four markets – radiation therapy, diagnostic radiology, metrology and radiation monitoring. For almost a century, our innovations and technologies have contributed significantly to advance patient safety in modern radiation medicine. The precision of our measurement technology is legendary and has built PTW's reputation as a quality and technology leader in medical radiation measurement.

EuroMediTech Co., Ltd. is our valued partner in Japan for more than three decades. Sales, Customer Support and Service of PTW solutions are provided by trained professionals. Effective from January 1st, 2021 PTW is going to be exclusively represented by EuroMediTech Co., Ltd. in the radiation therapy market of Japan.

This will include all PTW brand ionization chambers such as Farmer®, Roos®, Markus®, PinPoint®, Bragg Peak® and our new electrometer generation UNIDOS® Tango and Romeo. Our full set of Dosimetry & QA systems for absolute and relative dosimetry for all modalities in the RT environment is represented by brands such as BEAMSCAN®, OCTAVIUS®, STARCHECK®, QUICKCHECKwebline®, RUBY and VERIQA.

We are looking forward to serving you with innovations and dedicated service in joint cooperation with EuroMediTech Co., Ltd. also in the future.
